Dear Students, Parents, Teachers and Well-Wishers,
With immense joy and gratitude, I present the First Edition of our School Magazine. More than a collection of words and pictures, this magazine is a reflection of our shared journey—a journey of learning, growth, creativity, perseverance, and hope. Every child carries a unique dream and an extraordinary potential. It is our privilege as educators and parents to nurture those dreams with love, wisdom, and encouragement. The pages of this magazine celebrate not only achievements but also the values, talents,

and spirit that make each student unique. As you read these pages, I hope you will be inspired to believe in yourself, embrace every opportunity to learn, and strive to become a person of character, compassion, and excellence. The future belongs to those who dare to dream, work with dedication, and use their gifts to make a positive difference in the lives of others. My heartfelt appreciation goes to our students, teachers, parents, and the editorial team whose dedication has made this beautiful publication possible. May this first edition mark the beginning of a tradition that continues to inspire generations of learners.

Our Reminder session: The Gentle Guide for Growth

Speak with kindness, choose your words,
Let your actions speak for you.
Choose your friends with an open heart, And
keep the good ones close to you.
Don't get lost inside a crowd, Just because
everyone belongs.

Make connections that feel real, Where you
can simply be yourself.
Put your phone down for a while, Let the
endless scrolling wait.
Look around and enjoy the world, Don't let the
screen decide your day.

Think before you act or speak, Be patient with
the choices you make.
Remember all your parents do, And the sacri-
fices they undertake.
Think about the girl you'll be, Eight years from
the person you are.
Picture her strong, happy and proud, And let
that dream guide you from afar.

Give each subject twenty minutes, A little
every single day.
Revise the things you've learned before, And
slowly you'll find your way.
Say your answers out aloud, Repeat them till
they stay.

Let studying become a habit, Not something
you fear every day.
Finish what you're meant to do, Be honest in
the work you show.
No shortcuts, no giving up, Just take your time
and learn and grow.
You don't have to change overnight, Just take
small steps each day.
Keep trying, keep believing, And you'll become
stronger along the way.

Guiding Hearts, Building Futures

Knowing Yourself and Understanding Others

Every child is unique. Just like no two fingerprints are the same, no two people are exactly alike. Learning about yourself and understanding others are important skills that help you grow into a kind, confident, and successful person.

Knowing Yourself : Knowing yourself means understanding who you are. It includes knowing your strengths, talents, feelings, likes, dislikes, and dreams. Some children enjoy drawing, while others love sports, music, reading, or helping others. When you discover what makes you special, you become more confident and happier.

You can know yourself better by asking questions such as:

- * What activities make me happy?
- * What am I good at?
- * What do I want to improve?
- * How do I feel in different situations?

Being honest with yourself helps you make good choices and learn from your mistakes. Remember, nobody is perfect. Every mistake is an opportunity to learn and become better.

Understanding Others : Just as you have your own thoughts and feelings, other people do too. Understanding others means listening carefully, showing kindness, and respecting differences. Your friends, family members, teachers, and classmates may think differently from you, and that is perfectly okay.

When you try to understand others:

- * You become a better friend.
- * You solve problems peacefully.
- * You learn new ideas and perspectives.
- * You create a happy and respectful environment.

Simple acts such as listening, sharing, helping, and saying kind words can make a big difference in someone's day.

Why Both Are Important : Knowing yourself helps you build confidence; while understanding others helps you build strong relationships. Together, these skills help you become a caring and responsible person.

Imagine a garden filled with different flowers. Each flower is beautiful in its own way. Similarly, every person has unique qualities that deserve respect and appreciation.

A Simple Message to Remember : Believe in yourself, appreciate your strengths, work on your weaknesses, and treat others with kindness and respect. When you understand yourself and care about others, you can make the world a better place, one kind action at a time.

"The better you know yourself, the more you can understand others. The more you understand others, the kinder and happier the world becomes."

A Teacher in Everyone's Life

Teachers are those who give us a new hope that we can do anything. They play a vital role in shaping our all futures. Behind every

successful person there is a teacher who guided them. I was a student who didn't know even alphabet. But teachers changed me from a girl who doesn't know alphabet to 'A' grade girl in my first class when I joined this school. One of my teachers said – "Life is like a game. How every next level of game becomes harder, in the same way every next level of life becomes harder, life is never easier." This is how teachers get change in us. There are many teachers who taught me but few teachers took a special place in my heart.

I request all to obey all teachers and once think of the teachers who took a special place in your heart too.

S. Aisha Siddiqa 10F

WHERE THERE IS A WILL THERE IS A WAY

The proverb means that if you are determined to do a thing how difficult it may be, you will find a way. A cause of failure is often

the absence of strong desire. A feeble stream of water will be stopped by every small obstacle, but a rushing flood water simply sweeps rocks, trees and banks out its way and moves forward.

Yekalavya learnt the art of archery by placing his idol Guru made of earth before him. Alexander Graham Bell an ordinary person, studied electricity and invented telephone in span of 20 years. The strong determination only brought them success. Napoleon said that word "Impossible" was not found in his dictionary.

S. Ahsa Anjum 10C

God always Gives us more Beyond our Expectations

Once a boy went to a shop with his mother. The shop keeper looked at the small cute child and showed him a bottle with sweets and said "Dear child

You can take the sweets." But the child didn't take. The shop keeper was surprised. Such a small child he is and why he is not taking the sweets from the bottle. Again he said "take the sweets"

Now the mother also heard that and said "take the sweets dear ..." Yet he didn't take The shopkeeper seeing the child not taking the sweets he himself took the sweets and gave to the child. The child was happy to get two hands full of sweets. While returning home the mother asked the child.... "Why didn't you take the sweets, when the shop keeper told you to take?" Child replies.... "Mom ! My hands are very small and if I take the sweets I can only take few, but now you see when uncle gave with his big hands, how many sweets I got."

Moral : When we take we may get little but when God gives, He gives us more beyond our expectations more than what we can hold !!

1. If you lose faith, you lose all.
 2. "What you are is God's gift to you, what you become is your gift to God."
 3. The smallest seed of faith is better than the largest fruit of happiness.
- F – Focus
A – Act with courage
I – Inspire hope
T – Trust the process
H – Hold on.

MORE ABOUT SCIENCE

2. The human body is about 65 % oxygen by weight.
3. While awake, your brain produces 10-23 W of power.
4. The Earth is a magnet.
5. It takes 8 minutes for light to travel from the Sun to Earth.

THE CHANGE WE ALL NEED

There is no one in the world, saying that he/she is really happy. We all have everything but still our desires look unfulfilled. We must think of the poor who still can't afford a meal per day.

They live on the footpath. They still feel happy if they get atleast two meals per day.

We, if we don't get or have something in our life, we blame God for the fate. In fact, who are you and me to question His divine timing and wisdom. Tomorrow, we might receive better than what we have lost today. We must work hard for what we need, not just leaving it at God. Imagine who will give you the wage without working.

We should dedicate ourselves for what we wish to achieve in our life.

Let's strive for what we want. Let's leave the present and make our future a dream.

S. Farahan 10G

YOUR ATTITUDE

Two people can have the same skills, the same education, the same opportunities. But one succeeds and one does, not why ? Because of "attitude".

Your attitude is the way you see the world. It is the way you respond to problem. It is the way you treat people around you. It is the voice inside your head that either says I can or I cannot. A positive attitude does not mean that everything is easy. It means you believe you can handle, whatever comes your way. It means you can walk into every room you like. It means you can face every challenge like it is an opportunity. Your attitude is your choice. Every single morning you wake up, choose how you are going to respond to the people. You choose how you are going to handle your problems. So choose well. Choose a positive attitude, choose to believe in yourself. Choose to keep going. Because your attitude today is building your life tomorrow.

The Value of Life

Life is greatest gift we have. Every day gives us a new chance to learn, grow and become a better person. Success does not come overnight – It is achieved through

hardwork, patience and determination.

Treat everyone with kindness and respect because small acts of kindness can make a big difference. Learn from your mistakes instead of fearing them. Never stop dreaming, but always be ready to work hard to achieve your goals.

Remember :

- * Believe in yourself.
- * Be honest and humble.
- * Value time, because it never comes back.
- * Help others whenever you can.
- * Keep learning everyday.

“The purpose of life is not just to live, but to learn, grow and make the world a little better through our actions.”

ARTIFICIAL INTELLIGENCE IN STUDENT'S LIFE

Artificial Intelligence has fundamentally reshaped student's life, acting as an everyday companion that handles time management and personalized tutoring. But it also has some drawbacks.

1. Reduced critical thinking : Relying too much on AI can stop us from thinking independently.
2. Less creativity : Students may use AI generated ideas instead of original work.
3. Over dependence : Students may struggle to complete work without AI tools.
4. Less interaction with teachers : Depending only on AI may reduce valuable discussion and guidance from teachers.

Use AI wisely, but never stop thinking independently. True success comes from your own knowledge, effort and creativity.

THE VALUE OF TIME

Once upon a time, there was a young boy named Sam who loved to play all day avoided his chores. One day, he met an old man who was busy planting seeds in his garden. Curious, Sam asked, “Why are you working so hard ?” The old man smiled and said, “Time is like a river ; it flows away & never returns. Every moment you waste is like a seed that will never grow.” Sam thought about it and realized he had been wasting his precious time. He decided to make each day count, balancing his fun with his responsibilities years later. Sam became successful and happy, always grateful for the lesson he learned. He understood that time once lost could never be regained and that each moment was a gift to be cherished.

DREAMS : THE JOURNEY FROM VISION TO REALITY

Every great achievement begins with a dream. Dreams are not just wishes on fantasies ; They are the visions that inspire people to create, discover and make a difference. From inventors and scientists to athletes and artists, every successful person once had a dream that seemed impossible. Dreams give our lives purpose and direction. They motivate us to work hard, overcome challenges and keep moving forward even when the path becomes difficult. However, dreaming alone is not enough. Achieving a dream requires determination, discipline and persistence. Hardwork is essential. Success rarely happens overnight. There will be obstacles, failures and moments of self-doubt. Instead of giving up, treat these challenges as opportunities to learn and grow. Every mistake teaches a valuable lesson that strengthens your characters. Another important factor is believing in yourself. Confidence does not mean knowing everything your ability to learn and improve. Patience is equally important. Great achievements take time. Consistency, even in small daily efforts, often leads to extraordinary results. Remember, every remarkable achievement in history began as a dream in someone's mind. Your dream has the potential to shape your future start taking the first step

Human values

Human values are the foundational principles and beliefs that guide ethical decision-making, shape character, and help us distinguish right from wrong. They act as an internal moral compass, influencing

how we interact with others and promoting harmonious coexistence across societies. While cultures and personal philosophies vary, the five core universal human values include: 1) Truth (Satya) 2) Right conduct (Dharma) 3) Peace (Shanti) 4) Love (Prema) 5) Nonviolence (Ahimsa)

A letter to future

Dear future,

We have never met, yet every heartbeat we take today is walking towards you. I wonder what your skies look like. Are they still blue, or have we forgotten how to protect them? Do birds still sing at sunrise? Do children still laugh without fear? I hope your answer is 'YES'. If you are reading this, remember that world you live in was built by choices we made today. Every tree we planted, every hand we helped, every truth we spoke, and every dream we dared to chase became a part of your tomorrow.

I hope your cities are filled with clean air instead of smoke, conversations instead of conflicts & compassion instead of hatred. Please don't measure success only by height of buildings or the speed of machines. Measure it by number of smiles, the strength of friendships, peace in every heart & every child. Whenever world feels divided, choose unity. Whenever darkness grows, become light. Whenever someone loses hope, become their reason. Always remember: you, the future is not written by time - it is written by people purpose. So, dear future, take care of this beautiful world until we meet through pages of history..... With endless hope, a student of today.

The Power of Subconscious Mind

"A positive mind creates a positive life". The subconscious mind is a hidden power that influences our thoughts, habits and actions. It stores our beliefs and experiences, shaping the way we see the world. Positive thoughts build confidence, motivation and the courage to face challenges. When we believe in ourselves, our subconscious mind helps us move towards success. Great achievers use the power of positive thinking, focus and determination. Students can develop this power through good habits, clear goals and self-confidence. The subconscious mind is like a garden

where thoughts are the seeds we plant. If we plant seeds of hope and hard work, we can grow success. Therefore, controlling our thoughts is the first step towards achieving our dreams.

Life Beyond the Screen

Disconnected --- yet more connected Technology has made our lives easier by helping us learn, communicate, and connect with the world. However, when we spend too much time on screens, we often miss the joy of real conversations, meaningful relationships, and the beauty of the world around us. The key is not to avoid technology but to use it wisely. Let us enjoy the benefits of the digital world while making time for our families, friends, books and nature. After all, a balanced life is the happiest life.

Character! Competence! Contribution!

The Three Pillars of Success At our school, we believe true success is built on three strong values. Character shapes who we are. It is reflected in honesty, kindness, respect, discipline and responsibility. Competence helps us to grow through education, learning, and continuous practice. We gain knowledge, develop skills, and prepare ourselves for a bright future. Contribution gives purpose to our lives. By helping others, serving our school, and making a positive difference in society, we become responsible citizens. In Conclusion when character guides us, competence empowers us, and contribution inspires us. These three values prepare every student for a life of Purpose, Excellence and Service.

The power of prayer

Prayer is one of the greatest blessings God has given us. It is our way of talking to Him. Through prayer, we thank God for His love, ask for His guidance, and share our worries and hopes. Prayer helps us to build a close relationship with God and gives us peace in our hearts. The Bible teaches us that God always listens to our prayers. Sometimes He answers immediately, while at other times, He asks us to wait, and sometimes His answers may be different from what we expect. We can trust that God's plan is always the best for us. Prayer gives us strength to face difficulties, courage to overcome challenges, and hope for the future.

LIFE OF A SOLDIER

The life of a soldier is full of sacrifices. Soldiers dedicate themselves to protecting their country and its people, often undergoing rigorous training and facing challenging circumstances. Their families play an important role in supporting and encouraging them throughout their journey. Soldiers often live far away from their loved ones for long periods, making countless sacrifices for the safety and security of the nation. Finally, there comes the hardest and most tearful day—the day when soldiers leave their homes to serve and protect the nation. They bid farewell to their loved ones and embark on their noble duty.

Why Failure is your Best Teacher ?

Failure is an important part of success. It teaches us to learn from our mistakes, improve our skills and become stronger. Every failure helps us grow and prepares us for future

challenges. Instead of fearing failure, we should see it as a chance to learn and do better. Many successful people failed before achieving their goals. In conclusion, failure is our best teacher because it helps us grow, learn and move closer to success.

Turning the Mistakes into Mastery

Mistake increases your experience and experience decreases your mistakes. If you learn from your mistakes, others learn from your success.

Self-control is strength. Right thought is mastery. Calmness is power. Be impressed by: Humility, Integrity, Generosity and Kindness. Believe in hard work. Mistake is single page of life. But relationship is a complete book. So do not close a full book for single page. Every problem is an opportunity to invent new possibility.

Importance of a Teacher

Education, the most important thing for us, cannot be achieved without a teacher. A teacher provides a nation with doctors, engineers, scientists, officers, etc... A child can never shape his life and future without a teacher. The teacher enables us to differentiate between right and wrong. It is a teacher who enriches children with truth and honesty. They have enough quality to inspire the entire nation. An unbiased teacher never promotes discrimination. It is a teacher who leads the nation to the summit of success. In Hinduism and other religions, a teacher is rewarded above the god.

How to have Self-Control

1. Know what you really want: You can't control yourself if you don't know your target. Ask yourself: "What do I want to achieve in the next 30 days?" Your

clarity becomes your strength.
2. Avoid Temptations (Don't fight them): Self-control becomes easier when you remove things that weaken you:
* If phone distracts you, put it far away.
* If you overspend, avoid going out with too much cash.

The Little Seed's Dream

Once there was a little seed living quietly under the soil. It dreamed of becoming a big, beautiful tree, but it was afraid of the rain, wind and bright sunlight. One day, the soil encouraged it, saying, "If you stay here because of fear, how will you achieve your dream?" The seed gained courage and began to grow. Slowly, a tiny plant came out of the soil. It faced strong winds, heavy rain and bright sunlight, but it stood bravely. Days passed, and the little plant became a strong, beautiful tree. The seed had achieved its dream. Moral: We should face difficulties with courage and never give up on our dreams.

The Cracked Pot

A water bearer carried two earthen pots on a pole across his shoulders. One pot was perfect and delivered a full load of water, but the other had a crack and arrived only half full. Ashamed of its flaw, the cracked pot apologized to the man for wasting his efforts. The bearer smiled and said, "Look at the path as we walk home." Along the cracked pot's side grew a vibrant line of wildflowers, while the other side was completely barren. "I always knew of your leak," the bearer explained. "So I planted seeds along your side, and you watered them every day. Without your flaw, this path would have no beauty." Moral: Even our flaws can create unexpected beauty and purpose

Be an Eagle

All birds find shelter during rain, but the eagle flies above the clouds by using the winds. No matter how high it flies, it is always focused and fearless. Eagles don't follow the crowd; they fly alone at the top like a king. Leadership is an action, not a position. "Be like an eagle, like a king."

I love the Earth because it is our home. Every day, I carry a reusable water bottle, never litter plastic on the ground, and always use the dustbin. I switch off lights and fans when not in use. Save water by turning off taps properly, plant and water young trees. Write on both sides of my notebook pages. Keep my school and classroom clean, and walk or cycle whenever possible to protect nature.

MAGIC OF READING BOOKS

Books are our best friends. They teach us new things, take us to amazing places, and fill our minds with wonderful ideas. A good book can make us laugh, think, and dream.

Reading every day improves our knowledge, vocabulary, and imagination. It also helps us become better students and more confident speakers. Whether it is a storybook, a science book, or a biography, every book has something valuable to teach. In today's world, many children spend more time on mobile phones than on books. However, reading for just 20 minutes every day can make a big difference. Books help us develop core values such as honesty, kindness, courage, and hard work. As the famous saying goes, "Readers are leaders." Let us make reading a daily habit and discover the world.

A Designer of the Nation

A teacher is one who can immediately come down to the level of the student and transfer one's knowledge and see through and understand the student's mind. Such a teacher can really teach and none else. A teacher is the maker of future citizens. A teacher can make history. A teacher's role in society is of vital importance. He acts as the driving force for the transmission of intellectual and reformed skills from generation to generation, and helps to keep the lamp of civilization burning.

Without a teacher, even the best system of education is bound to fail. The intellectual and technical skills should be coupled with good character. A teacher of a good character is essentially a designer of the nation.

Words Are Powerful

Words are powerful. They are the most powerful weapons of human beings. Though they cannot be seen or touched, they have the ability to influence thoughts, shape emotions, a change lives. A few kind words can brighten someone's day, while harsh words can leave lasting scars. This is why we must use our words wisely. Words play an important role in building relationships. Expressions such as "thank you", "please", "well done" and "I am sorry" strengthen bonds between people. They create trust, respect and understanding. On the other hand, careless words can lead to misunderstandings and conflicts. As students you should remember that words have the power to encourage, comfort, educate and inspire. Let us choose words that heal rather than hurt, unite rather than divide, and build rather than destroy. When used wisely, words become a force for good and a tool for making the world a better place. In conclusion, words are powerful because they can influence hearts, minds and actions. Let us use this powerful weapon responsibly and make every word count.

"Words are free. It's how you use them that may cost you - or help you change a life."
"A word can construct; A word can destroy." Let us be mindful in using words.

THE GIFT OF SPEECH

"Every word you speak finds a home in someone's heart"
Speech is one of the greatest gifts God has given us. The words we speak have the power to encourage, comfort, inspire, and transform lives. Every word we choose reflects who we are, so let us use this precious gift wisely. The way we use this gift determines the impact we make on others:

- * If you speak politely, you earn respect.
 - * If you speak kindly, you spread love.
 - * If you speak truthfully, you build trust.
 - * If you speak gently, you create peace.
 - * If you speak respectfully, you strengthen relationships.
 - * If you speak with gratitude, you spread joy.
 - * If you speak positively, you brighten someone's day.
 - * If you speak with humility, you win hearts.
- Words cost nothing, but they can mean everything. A single word can wipe away a tear, restore broken confidence, or bring a smile to a lonely heart. So, let every word you speak leave behind kindness, and when words are not needed, let your silence speak with wisdom.

Ms. Anusha, English Teacher

వాళ్ళు నావాళ్ళు, వీళ్ళు నావాళ్ళు అని నువ్వు అనుకుంటే సరిపోదు... !!! ఎదుటివాళ్ళు కూడా అనుకోవాలి... !!! అప్పుడే దాన్ని బంధం అంటారు... !!! లేకపోతే దాన్ని భ్రమ అంటారు... !!!

ఒర్పు

“ఒర్పు” ఉన్నవారు “ఓడిపోవడం” అంటూ జరగదు “ఒర్పు” లేనివారు “గెలవడం” కూడా జరగదు “కష్టం” లేని “సంపద” ఎప్పటికీ నిలవదు “కష్టపడిన” “సంపద” ఎప్పటికీ “వృథా” అవుతుంది ... జీవితంలో “కోపం” కన్నా “మోసం” చాలా సార్లు మన విలువల్ని కాపాడుతుంది.

మంచి మాట

అమ్మని ప్రేమించటం గొప్ప కాదు ... అమ్మ నీ మీద చూపించే ప్రేమను పూజించు .. !! తండ్రికి భయపడటం గొప్ప కాదు ... తండ్రి నీకు నేర్పిన నడవడిలో .. చూపిన బాటలో నడిచి చూపించు ... !!!

నువ్వు గెలవడం ముఖ్యం కాదు నీ గెలుపు పది మందికి స్ఫూర్తి కావాలి. సాధారణంగా పుట్టడం నీ తప్ప కాదు కానీ అసాధారణంగా మరణించడం నీ బాధ్యత మట్టిలో విత్తనంలా దాగిపోకు

మహా పుష్కలం ఎదిగి నీడను ఇవ్వు లోకం నిన్ను చూసి నేర్చుకోవాలి నీ అడుగుజాడల్లో మలికొందరు నడవాలి జీవితం ఒక అద్భుతమైన అవకాశం దాన్ని ఒక చరిత్రగా మార్చేయి. ధన్యవాదములు.

మానవత్వం చాలా గొప్పది

ఆకలిఉన్న వాడికి గుప్పెడు అన్నం. ఆపదలో ఉన్న వాడికి కొంచెం సాయం. బాధలో ఉన్న వాడికి కొంచెం ఓదార్పు. అందించడమే నిజమైన మానవత్వం! గుడి అయినా, చర్మి అయినా, మనీడు అయినా భిక్షగాళ్ళు ఎదురు చూసేది

దేవుని కోసం కాదు, దానం చేసే మనిషి కోసం!

ఎదురు దెబ్బలు

జీవితంలో ఎదురు దెబ్బలు తగలడం మన మంచికే కాలికి తగిలే దెబ్బ ఎలా నడవాలి? నేర్పిస్తుంది. కడుపు మీద తగిలిన దెబ్బ ఎలా కప్పవడాలో నేర్పిస్తుంది. మనసుకు తగిలే దెబ్బ ఎలా ఉండాలి? నేర్పిస్తుంది. బ్రతుకు మీద తగిలే దెబ్బ

ఎవరిని నమ్మాలి? నేర్పిస్తే జీవితం మీద తగిలిన దెబ్బ ఎలా ఎదుర్కోవాలి? నేర్పిస్తుంది.

నాన్న అంటే ఏమిటి?

కోపంగా ఉన్న నాన్నకు ప్రేమ లేదనుకున్నా..... మౌనంగా ఉంటే మాట్లాడడం ఇష్టం లేదనుకున్నా..... కొడుకుంటే నాన్నకు అప్యాయత లేదనుకున్నా..... ఆజ్ఞలు వేస్తుంటే ఇంటంటని బాధపడ్డా..... కానీ తర్వాత తెలిసింది.

అన్నింటి వెనుక "నాన్న ప్రేమ" ఉందని మన భవిష్యత్తు కోసం నాన్న తపన ఉంటుందని.....

విద్యార్థులు

"విద్యార్థి" అంటే విద్యను అర్థించేవాడు. విద్యార్థులు దేశ భవిష్యత్తుకు పునాది మరియు సమాజానికి వెన్నెముక. విద్య అనేది వారి వ్యక్తిత్వ వికాసానికి, నైతిక విలువల పెంపుదలకు మరియు దేశ పురోగతికి ఎంతో అవసరం. విద్యార్థి దశలో నేర్చుకునే ప్రతి అంశం వారి భవిష్యత్తును తీర్చిదిద్దుతుంది. విద్యార్థుల జీవితంలో విద్య మరియు క్రమశిక్షణ చాలా ముఖ్యమైనవి. విద్యార్థి యొక్క ప్రధాన లక్ష్యం క్రమశిక్షణతో కూడిన విద్యను అభ్యసించడం. క్రమశిక్షణ అనేది వారి సమయపాలనలోను, పెద్దలను మరియు ఉపాధ్యాయులను గౌరవించడంలోను ప్రతిబింబించాలి. కేవలం పుస్తక జ్ఞానమే కాక, క్రీడలు, సాంస్కృతిక కార్యక్రమాలు మరియు సామాజిక సేవలో చురుగ్గా పాల్గొనడం ద్వారా వారిలో నాయకత్వ లక్షణాలు పెంపొందుతాయి.

भाषा - भावना
हिंदी : शब्दों में छिपी भावना ओं की दुनिया कभी सोचा है कि कुछ शब्द हमारे दिल क्यों छू जाते हैं ? इसका कारण है भाषा की सुंदरता। हिंदी ऐसी ही भाषा है, जिसमें केवल शब्द नहीं बल्कि भावनाएँ भी जीवित रहती है।

'माँ', 'ममता', 'प्रेम' और 'सपने' जैसे शब्द अपने अंदर गहरी भावनाएँ छिपाए हुए हैं। हिंदी की खासियत यह है कि यह कठिन विचारों को भी सरल शब्दों में समझाने की क्षमता रखती है इसमें लोक कथाओं की मिठास, कविताओं की कल्पना और रोजमरा के जीवन की सच्चाई दिखाई देती है। हिंदी समय के साथ बदलती और आगे बढ़ते रहने वाली भाषा है। आज युवा हिंदी को नये तरीकों से अपना रहे हैं - कहानियाँ, फिल्मों डिजिटल माध्यमों और रचनात्मक लेखन के द्वारा यही इसकी जीवंतता है। हिंदी केवल अतीत की धरोहर नहीं बल्कि भविष्य की संभावनाओं से भरी भाषा है। जब हम हिंदी का प्रयोग करते हैं, तो हम अपने विचारों को एक ऐसी आवाज देते हैं, जो सीधे दिल तक पहुँचती है।

మా ఆయ"ఆమ్మలు"

పాఠశాల కేవలం నాలుగు గోడల భవనం మాత్రమే కాదు; అది భావితరాల భవిష్యత్తును తీర్చిదిద్దే పవిత్ర జ్ఞాన దేవాలయం. క్రమశిక్షణ, విలువలతో కూడిన విద్యాబోధనతో విద్యార్థులను ఉన్నత శిఖరాలకు చేర్చడంలో మన ప్రిన్సిపాల్ గారి సమర్థవంతమైన మార్గదర్శకత్వం, దార్శనికత ఎంతో స్ఫూర్తిదాయకం. వారి నాయకత్వంలో ఉపాధ్యాయ బృందం అనునిత్యం అంకితభావంతో పనిచేస్తూ, విద్యార్థుల మేధో వికాసానికి, సత్వవర్ధనకు నిరంతరం పునాదులు వేస్తోంది. గురువులు విద్యాబుద్ధులు నేర్పిస్తూ పుస్తకాల పరిజ్ఞానాన్ని అందిస్తారు.

మన పాఠశాల గురించి అలోచించినప్పుడు మనకు ముందుగా గుర్తుకు వచ్చేది మన ప్రిన్సిపాల్ మన ఉపాధ్యాయులు, స్నేహితులు, తరగతి గదులు, పాఠాలు, కానీ వీటన్నింటి వెనుక మన పాఠశాల కోసం ప్రతిరోజూ ఎంతో కష్టపడే మరికొందరు కూడా ఉన్నారు. వారే మన ఆయమ్మలు, వాచ్ మెన్లు మరియు ఇతర సహాయక సిబ్బంది. మన వాచ్ మెన్లు పాఠశాల భద్రత కోసం ఎంతో బాధ్యతగా పనిచేస్తారు. ఎంజైనా, వానైనా పాఠశాల గేటు వద్ద కాపలాగా ఉంటూ మన భద్రతను చూసుకుంటారు. వారి వల్ల

మనం పాఠశాలలో సురక్షితంగా ఉన్నామనే నమ్మకం కలుగుతుంది. విద్యాలయ పరిసరాలను కంటికి రెప్పలా కాపాడుతూ, పిల్లల ప్రతి చిన్న అవసరాన్ని తీర్చే అద్భుత దేవతలు మన పాఠశాల సహాయక సిబ్బంది (ఆయమ్మలు). బడి గంట మోగడానికి ఎంతో ముందే వారి కర్తవ్యం మొదలుపెడుతుంది. వేకువజామునే పాఠశాలకు చేరుకుని తరగతి గదులను శుభ్రం చేయడం, బెంచీలను క్రమవర్గతీలో అమర్చడం, తాగునీటి వనతిని నిర్ధారించడం వంటి పనులన్నీ చిరునవ్వుతో పూర్తి చేస్తారు. చిన్న తరగతుల పిల్లలు పాఠశాలకు రాగానే వారి బరువైన బ్యాగులను మోయడం, వాహనాల నుంచి దిగేటప్పుడు ఎవరూ జాలిపడకుండా చేతులు పట్టుకుని క్షేమంగా తరగతి గదికి చేర్చడంలో వారిది తల్లి ప్రేమ, ప్రత్యేకించి ప్రాథమిక, పూర్వ ప్రాథమిక తరగతుల చిన్నారులకు ఆయమ్మలే ప్రత్యక్ష సంరక్షకులు. పిల్లలు భోజనం చేసే సమయంలో అన్నం సరిగ్గా తినేలా చూడటం, నీళ్ళు ఒకటోసుకుంటే తడి తుడవడం, యూనిఫాం మురికి కాకుండా జాగ్రత్తపడటం వారి దినచర్యలో భాగం. ఏ చిన్నారి అయినా ఆకలితో ఏడ్చినా, ఆడుకుంటూ కిందపడి గాయపడినా క్షణాల్లో స్పందించి ఓదార్చి ప్రథమ చికిత్స అందిస్తారు. వారి ప్రేమపూర్వక స్మర్తలో పిల్లలు తమ కన్నతల్లి ఒడిలోని భద్రతను అనుభవిస్తారు. ఈ నిస్వార్థ సేవ వెనుక వారి వ్యక్తిగత జీవితాల్లో ఎన్నో సవాళ్ళు దాగి ఉంటాయి. ఎవరికీ కనిపించని కుటుంబ సమస్యలు, ఆర్థిక ఇబ్బందులు, అనారోగ్యాలు, పిల్లల చదువుల భారం వంటి మోయలేని బరువులు వారి గుండెల్లో ఉన్నప్పటికీ, పాఠశాల గేటు దాటి లోపలికి వచ్చేసరికి వాటన్నింటినీ మర్చిపోతారు. తమ కష్టాలను ముఖం పై ఏమాత్రం కనిపించనీయకుండా, పెదవులపై చిరునవ్వుతో మన పిల్లల సంక్షేమం కోసమే త్రమిస్తారు. సొంత బడ్డెల కంటే ఎక్కువగా పాఠశాల విద్యార్థుల ఆరోగ్యాన్ని, క్షేమాన్ని కనిపెట్టుకుని ఉండే వారి నిజాయితీ, నిబద్ధత వెలకట్టలేనివి.

పాఠశాల శుభ్రత, క్రమశిక్షణ, పిల్లల భద్రత అనే మూడు స్తంభాలపై నిలిచే ఈ మహోన్నత వ్యవస్థకు ఆయమ్మలు వెన్నెముక వంటివారు. ఉదయం నుంచి సాయంత్రం వరకు విశ్రాంతి లేకుండా సేవలందించే ప్రతి ఒక్క ఆయమ్మకు మనస్ఫూర్తిగా శిరస్సు వంచి నమస్కరిస్తున్నాము. వారితో గౌరవంగా మాట్లాడటం, వారి పనిని గౌరవించడం, అవసరమైనప్పుడు సహాయం చేయడం మన బాధ్యత. మనం చెప్పే ఒక చిన్న "ధన్యవాదాలు" కూడా వారికి ఎంతో ఆనందాన్ని ఇస్తుంది. వారు కేవలం పాఠశాలలో పనిచేసే వ్యక్తులు మాత్రమే కాదు; వారు మన పాఠశాల కుటుంబంలో ఒక ముఖ్యమైన భాగం. రేపు మనం ఈ పాఠశాలను విడిచిపెట్టి ఎంత దూరం వెళ్లినా, మన పాఠశాల జ్ఞాపకాలలో వారి కష్టం, వారి చిరునవ్వులు, వారు చేసిన సహాయం తప్పకుండా గుర్తుండిపోతాయి. మా కోసం ప్రతిరోజూ కష్టపడుతున్న ప్రతి ఒక్కరికీ మా హృదయపూర్వక ధన్యవాదాలు. మీ కష్టం ఎప్పుడూ చిన్నది కాదు, మీ సేవ ఎప్పుడూ మరువలేనిది. మేము మీకు ఎప్పుడూ చప్పట్లు కొట్టకపోయినా, మీ కృషిని మా హృదయాల్లో గౌరవిస్తాము. ఈ పాఠశాల మాకు కేవలం పాఠాలు నేర్పిన ప్రదేశం మాత్రమే కాదు—మీ లాంటి మంచి మనుషుల విలువను, కష్టాన్ని గౌరవించడం కూడా నేర్పిన కుటుంబం.

ధన్యవాదాలు చెప్పడానికి మాటలు సరిపోకపోవచ్చు. అయినా మా మనస్ఫూర్తిగా ఒక్క మాట—మా కోసం మీరు చేసిన ప్రతి పనినీ మేము ఎప్పటికీ మరచిపోము. మీ కష్టపడే తత్వానికి, నిస్వార్థ సేవా భావానికి యావత్ పాఠశాల యాజమాన్యం, ఉపాధ్యాయులు, విద్యార్థులు, తల్లిదండ్రుల తరపున నా హృదయపూర్వక ధన్యవాదాలు మరియు కృతజ్ఞతలు. మీ నిరంతర త్రమితోనే మన విద్యాలయం ఒక అందమైన ఇల్లుగా నిరాజిల్లుతోంది.
